

PRESS RELEASE
For Immediate Release

Tim Schnarr, P.Eng., elected Vice Chair of ITS Canada

Edmonton, Canada, May 10, 2009— At ITS Canada's (Intelligent Transportation Systems) general meeting in Edmonton, Alberta Tim Schnarr was elected as the organization's Vice Chair. Tim is currently the Vice President of Transportation for Delcan's Systems Business, Canada and International Operations, a post he has held for the past 16 years. As a Vice President, Mr. Schnarr is responsible for all ITS related projects undertaken by Delcan in central and eastern Canada.

Mr. Schnarr received his B.A.Sc. in Civil Engineering from the University of Waterloo and has 32 years of professional experience working on a broad range of ITS projects across Canada and throughout the world. He has a strong background in traffic engineering and transportation planning and specializes in the application of technology to address the many transportation challenges that face our urban centers today. Tim has been an active member of ITS Canada over the past 10 years, and has served as a member of the Member Services Committee for the last 5 years.

Joe Lam, President of Delcan's Systems Business, Canada and International Operations and outgoing Chairman of ITS Canada commented, "Tim has had a distinguished career in ITS and is highly committed to the industry. I am confident that as the Vice Chair of ITS Canada that he will make a valuable contribution to the Society as well as the Canada's ITS community, as a whole."

ITS (Intelligent Transportation Systems) Canada is a professional non-profit society, with the inter-related goals of fostering ITS applications, promoting government-industry cooperation and strengthening the ITS industry. ITS Canada is recognized as the most knowledgeable source for information and advice on intelligent transportation systems in Canada. The Society positions itself to be fair and unbiased, and does not lobby for or promote any specific commercial interest.

Delcan, founded in 1953 and operating globally, serves a multi-disciplinary client base by focusing on meeting client needs and expectations. Delcan offers innovative infrastructure and systems solutions that combine high quality with cost-effectiveness. Please visit us at www.delcan.com.
