

IRF Calendar of Events - 2010

IRF Road Scholar Program

January 6 – 15, 2010

Washington, DC

This annual 10-day Program introduces top transportation graduate students (recipients of IRF grants) to its members and the road industry leadership. This is an ideal recruitment opportunity for IRF members.

IRF Annual Awards Luncheon

January 11, 2010

Washington, DC

This annual event honors and recognizes outstanding projects and organizations in front of an international audience of hundreds of road industry professionals.

World Bank Road Safety Training

March 2010

Africa & South America

IRF's multi-disciplinary road safety training will cover Roadside & Median Safety, Vulnerable Users, and Intersection and Roundabout Safety.

Senior Road Executives Program

April 12 – 24, 2010

Birmingham, United Kingdom

The Program is designed to advance understanding, through an inter-disciplinary approach, of the most pressing issues facing the road sector by providing a unique forum for debate and discussion led by experts.

IRF World Meeting 2010

May 25 – 28, 2010

Lisbon, Portugal

IRF's largest and most important event of 2010 will gather the global road industry together to share best practices, network with colleagues, identify potential business partners and clients, and provide a global forum to showcase the industry's latest technologies.

Preserving Our Highways Infrastructure Assets

August 3 – 6, 2010

Orlando, Florida

This year's seminar features new and updated content, including presentation and evaluation of case studies and diverse country experiences and lessons learned applicable to developed and developing countries.

IRF Workshop on Performance Based Contracts & Evaluating Asset Condition

September 8 – 10, 2010

Austin, Texas

Highway industry experts and practitioners from Canada, Europe and the United States will discuss how Performance-Based Contracts can be part of an effective strategy to perform highway maintenance on existing and newly constructed infrastructure that may be part of a design-build-maintain contract.

IRF North America Regional Congress

October 3 – 6, 2010

New York, New York

Held in conjunction with the 2010 ARTBA National Convention, this event is designed to meet the needs of road industry senior management. There will be sessions focusing on both North American and international projects, markets, technology innovation, and industry trends.

4th SARF/IRF Regional Conference for Africa

October 11 – 14, 2010

Capetown, South Africa

This regional conference will present solutions to the critical challenge to Africa's economic and social development posed by deteriorating and insufficient infrastructure.

IRF Roadside and Work Zone Safety Workshops

November 1 – 2—Tokyo, Japan

November 4 – 5—Seoul, Korea

Held with the support of both the Japan Road Association and the Korea Expressway Corporation, these IRF workshops will showcase state-of-the-art safety concepts, best practices and innovations from North America and Europe to the Japanese and Korean Road Authorities.

IRF Executive Seminar on Performance Based Road Maintenance Contracting

October 31 – November 9, 2010

Orlando, Florida

Global experts in the fields of maintenance planning, financing and program development will present the latest information concerning existing and future program initiatives.

IRF Latin America Regional Congress

November 8–11, 2010

Bogotá, Colombia

In collaboration with the Inter-American Development Bank, this congress will feature international expert speakers focusing on the specific needs and solutions to the infrastructure, safety and mobility challenges of Colombia and the rest of Latin America.

5th Regional Conference on Road Safety

November 25 – 26, 2010

New Delhi, India

This conference offers a forum for regional stakeholders and their international counterparts to devise road sector policies to develop better, safer roads in India.

IRF Middle East Regional Congress

November 29—December 2, 2010

Abu Dhabi, UAE

This unique congress will consist of executive and technical sessions featuring innovation, sustainability and best practices. The event also includes formal IRF training workshops focused on the needs of Gulf and larger Middle East.

IRF Safer Roads by Design

December 8—10, 2010

Orlando, Florida

This Executive Workshop is designed to meet the emerging needs of road safety professionals in the areas of roadway design, its impact on highway safety, and the selection of appropriate hardware. The event will also focus on safety issues associated with vulnerable road users and on applying "appropriate" countermeasures.
